

LEARN A FOREIGN LANGUAGE WITH SUPERLEARNING

SLL Institute offers foreign language training either as
ONE ON ONE LESSONS
or as
COMPANY COURSES

for the following languages:

- ENGLISH
- GERMAN AS A FOREIGN LANGUAGE
- SPANISH and
- POLISH

Superlearning is Brain Friendly Learning.

The methodological core of our teaching at SLL is a method called Suggestopedia or Superlearning: this is learning new information in a state of light relaxation accompanied by Baroque or classical music. This new material is learned passively 3 to 5 times faster than with traditional methodologies.

It is then activated by means of creative, interactive learning techniques such as role play, NLP, music & rhythm, art, Brain Gym, guided fantasy, visualization and relaxation, mnemotechniques and mindmapping. The right and the left brain hemisphere are equally activated and the preferred learning style of each individual student is accounted for.

You learn globally in a relaxed atmosphere with an emphasis on teamwork. Learning barriers disappear. All of these elements combine to create a sense of well-being and enjoyable learning. Success breeds success. And you experience that learning a language can be a lot of fun.

We would be pleased to advise you and, if you wish, conduct a free and non-binding placement test to determine your level and learning style.
